

## INTEGRA EDMONTON

**Integra's Edmonton clinic is located at 10180 101 Street, Suite 3400.**

The building is called Manulife Place and we are within a shared office location at Regus.

Manulife Place is nestled in both Edmonton's financial district as well as law district, minutes away from vital services such as the Law Courts, City Hall, as well as main branches for all the major banks.

The building is located in the middle of Edmonton's pedway system, a vital resource that spans from Edmonton's Land Titles Office to 103rd Street. Being in the heart of the city, Manulife Place is also a central hub for transit. It is a large transfer location for the city and surrounding area busses, as well as growing LRT system.

Access to the Manulife Place parkade is located on 102 Street. If you park in the parkade, to access the 34th floor, you must get off the parkade elevators on the second floor, go around to the other side of the glass doors and access a different set of elevators for floors 28 through 36. When you come off the elevator from the parkade, you will see the security desk on your right-hand side. The elevators and security desk are both located behind the escalator on the second floor. If in doubt, please check with security. Once you get to the elevators for floors 28 through 36, click on the elevator screen to choose Floor 34 and the screen will guide you to the letter on top of the elevator that shows you to our floor.
